

## Environmental policy

This policy applies to all activities undertaken by Wallscope Ltd and impacts upon key suppliers and customers.

We are committed to building a sustainable world and adopt environmentally-friendly working practices and attitudes. We do not support activities or organisations that do harm to people or the environment. We act with integrity and work to eliminate bias on both a human and technological level.

We are committed to:

- comply with all relevant legislation and regulations;
- regularly review the environmental impact of our activities, endeavour to reduce our overall environmental impact and prevent waste using best practice techniques;
- involve employees in our environmental programme and provide necessary training to enable them to discharge their responsibilities;
- sustain a programme of continual improvement in environmental performance incorporating suitable measurement and monitoring mechanisms;
- work with key suppliers and clients to encourage them to develop environmental best practice;
- improve resource efficiency (including our use of water, energy and raw materials).

Wallscope is committed to a world without barriers to knowledge.
